

The voice
of the Specialty Feed
Ingredients Industry in the
European Union

FEFANA is the united voice of the specialty feed ingredients business in Europe where the industry generates an annual turnover of 5 billion EUR.

FEFANA membership comprises manufacturers and traders of feed additives, functional feed ingredients, premixes and other mixtures of specialty ingredients.

Centred in the heart of Brussels, FEFANA facilitates the dialogue between EU institutions and feed business operators while promoting feed and food safety in a fair and competitive global market.

The specialty feed ingredients industry is transferring research into innovative solutions for safe and sustainable animal nutrition

Values

- Safe feed for safer food
- Premium animal nutrition
- Sustainability
- Research and product innovation

Activities

- Represent the common interests of the European Industry of Specialty Feed Ingredients
- Promote the benefits and safety of specialty feed ingredients and their mixtures
- Maintain cooperative contact with EU and Member States authorities
- Participate to the legislation-making processes of the EU
- Provide regulatory expertise and professional tools

Objectives

- A level playing field for the industry supported by a transparent EU legal framework
- Harmonised implementation of legislation across EU Member States
- Global convergence and harmonisation of requirements for market authorisation of specialty feed ingredients
- Close partnership and collaboration in the value chain to foster innovation in the sector
